

HOW TO FEED SPELLETS

| | Dry Mares | Pregnant Mares | Lactating Mares | Weanlings | Yearlings |
|---------------|-----------|----------------|-----------------|-----------|-----------|
| Spellets | 0.5kg | 0.5kg | 1.0kg | 0.75kg | 1.0kg |
| Oats | 2-4kg | 2-4kg | 2-5kg | 1.0kg | 2-4kg |
| Lucerne Chaff | 1.0kg | 0.5kg | 1.0kg | 0.75kg | 1.0kg |

Horsepower Spellets are a particularly useful supplement when the main source of energy is being derived from a grain based source such as oats. Many grain and forage crops grown in Australia are deficient in essential minerals due to decades of chemical agriculture where soil minerals are not replaced as crops are harvested or grazed. As a consequence essential minerals are no longer available naturally in adequate quantities in the grains supplied. Animals fed on these mineral deficient feeds will suffer deficiency diseases. Fulvic minerals are plant derived forms of over 50 minerals, trace elements and rare earths that support good health. Hydrated Zeolites are an extremely potent means to remove metabolic wastes and toxins from the body. This is an extremely positive influence on metabolism favoring optimal health and peak performance. They are also a source of bio available silicates and minerals. Because of the obvious health benefits of including hydrated zeolites and fulvic minerals to the diet they are now included in Horsepower Spellets

ANALYSIS (PER kg)

| | | | | | |
|----------------|-------------|------------|------------|------------------|------------|
| Energy | Min 3.0MCal | Zinc | Min 649mg | Vitamin E | Min 400iu |
| Min Calcium | 2.50% | Copper | Min 300mg | Pantothenic Acid | Min 12mg |
| Max Calcium | 3% | Manganese | Min 650mg | Biotin | Min 1mg |
| Min Phosphorus | 1% | Cobalt | Min 2mg | Folic Acid | Min 1.2mg |
| Max Phosphorus | 1.50% | Selenium | Min 1mg | Choline | Min 1600mg |
| Magnesium | Min 1% | Vitamin A | Min 3000iu | Nicotnic Acid | Min 60mg |
| Potassium | Min 1.2% | Vitamin B1 | Min 30mg | Lysine | Min 4.7% |
| Iron | Min 350mg | Vitamin B2 | Min 30mg | Methionine | Min 0.6% |

INGREDIENTS: Spellets are a pelletised supplement consisting of high quality protein, bran, minerals, trace elements, vitamins and salt.
