and a prebiotic to help maintain

# gastro intestinal health.

## CONTENTS

Zeolite volcanic clay mineral  
Equine B9 Botanic Extracts  
Agrimol<sup>®</sup> mannan oligopolysaccharide  
prebiotic

## DIRECTIONS FOR USE & FEEDING RATE

The amount to be fed should be mixed well  
with the normal feed or bran mash.

Use the scoop provided to measure the  
amount.

## FEEDING RATE PER DAY:

1 level scoop = 50g

Pony / Foal / Weanling  
up to 300 kg weight: 25g

Adult horses  
300kg – 500 kg weight 50g

Use of this product does not contravene  
the Rules of Racing or FEI Rules.

## USE INNER BALANCE FOR:

- Poor body condition or weight loss.
- Poor appetite
- Old age – the digestive system in older horses may be less efficient
- Soft manure (like a cow). Severe diarrhoea requires prompt veterinary attention.
- During periods of stress such as transport, racing, showing or competition.
- During recovery from colic, surgery or illness.
- Following treatment with antibiotics.
- When the feeding regime is changed
- Weaning of foals
- Whilst being fed high grain diets.
- When pasture has been flooded and is more susceptible to mould growth.

Inner Balance is designed to promote a healthy gut microbiome, support the immune system, neutralise toxins and protect the intestinal lining from harm.

## PACK SIZES

Available in the following pack sizes:  
Tubs 15kg, 3kg
